

PUBLIC NOTICE

18 December 2020

OLIFANTS POWER FAILURE AFFECTS WATER SUPPLY

The Olifantspoort Plant has been experiencing challenges of power dips. This has affected reservoir levels which are very low. Krugersburg reservoirs have been at their lowermost for days with negative impact on most supply areas.

All high lying areas in the city area are affected. In the meantime, water tankers will be deployed to all affected areas as a temporary relief measure.

Areas receiving supply are urged to use water sparingly.

Residents are advised to report all burst pipes, leaking water meters and open hydrants to municipal water and sanitation helpline at 015 023 5376 / 015 023 5629.

The municipality apologises for the inconvenience caused.
