

## **PUBLIC NOTICE**

24 December 2020

### **RESIDENTS URGED TO USE WATER SPARINGLY**

All Polokwane water consumers are urged to use water sparingly. The reservoir levels are critically low and not improving.

All Krugersburg reservoirs (50MI, 30MI Dome and 30MI Flat) are sitting at 0%. The reservoirs have not shown any improvement since Tuesday. On Tuesday afternoon, 50MI was sitting at 8%, 30MI Dome at 2% and 30MI Flat at 0%. 50MI and 30MI Dome has been sitting at the 0% since yesterday morning while 30MI Flat since Tuesday afternoon.

The other reservoirs are also not looking good as they are below 15%. It is by this reason that Polokwane Municipality urges all consumers to use this scarce, yet precious commodity wisely.

All water users are urged to:

- take shorter showers, turn off the shower while soaping up and then back on to rinse;
- reuse water where applicable;
- fix water leakages; and
- report pipe bursts or leakages to the municipality to municipal water helpline on 015 023 5376 / 5629.

End
