06 April 2021

### **SUPPLY INTERRUPTION DUE TO REPAIRS IN MAKGENG - LNW**

Polokwane Municipality has been notified by Lepelle Northern Water (LNW) of repairs on two pipeline leaks in the vicinity of Makgeng Village. Water supply from "Rusfontein reservoir outlets are closed and water will not go through to Polokwane Municipality," LNW said in a communication addressed to the municipality.

The water utility has estimated 4 to 5 hours until completion of repairs and "we are accumulating water into Rusfontein reservoirs to avoid extended water supply interruptions to Polokwane during the period of repairs".

The repairs will interrupt water supply to Polokwane Municipality's supply areas from Boyne, Mankweng, City to Seshego and all village distribution networks.

Polokwane Municipality will monitor the situation and provide regular updates and water tankers to affected areas where needed.

The municipality apologizes for the inconvenience caused.
