Seshego Electricity Being Attended

The electrical team is attending to electricity outage in Seshego. The whole areas is reported to be off and the electrician's are on the ground attending to a transformer that has tripped.

No time estimations at this moment. However, the matter is receiving urgent attention and the team will employ all measures to restore power as soon as possible. Update will be provided once available.

In the meantime, in order to avoid electrocution or damage, all electrical cables should be considered to be live and all electrical appliances be switched off.

The municipality apologize for the inconvenience caused and appreciates patience exercised by all the affected stakeholders whilst the matter is being attended.
