

PUBLIC NOTICE

18 January 2021

WATER SHORTAGE DUE TO POWER DIPS

Continuous power dips, load shedding and muddy water on the Ebenezer and Olifantspoort supply lines have impacted negatively to water supply to Polokwane areas.

While load shedding is affecting Ebenezer Plant, Olifantspoort Plant is operating at low capacity resulting in low reservoirs levels within Polokwane Municipality.

Most reservoirs are sitting at 0% while others are below 5%. Polokwane Municipality, as a result, is providing temporary relief measure through water tankers to the affected areas.

Areas receiving supply are urged to use water sparingly.
