## DIRECTORATE: OFFICE OF THE CHIEF FINANCIAL OFFICER

ITEM NO:

**REFERENCE:** 

ADJUSTMENTS BUDGET FOR 2021 – 2022 FINANCIAL YEAR

## Report of the Chief Financial Officer

## 1. Purpose of the report

The purpose of the report is to submit the 2021/2022 Adjustment Budget as required by section 28 of the Local Government Municipal Finance Management Act, No. 56 of 2003 and to request approval thereof.

## 2. Background

On 26 May 2021, Council approved the 2021/22 budget CR/172/05/2. The approved budget should be implemented in terms of Section 69 of the Municipal Finance Management Act. Section 69 (2) further stipulates that in the process of implementing the budget and when necessary, the Accounting Officer must prepare an adjustments budget and submit it to the Mayor for consideration and tabling in the Municipal Council.

Section 72 of the above-mentioned Act also stipulates that the Accounting Officer of a municipality must by 25 January of each year assess the performance of the municipality during the first half of the financial year and as part of the review, make recommendations as to whether an adjustments budget is necessary, and recommend revised projections for revenue and expenditure to the extent that it may be necessary.

Section 28 (2) provides guidelines when an Adjustments Budget is prepared. The guidelines are as follows:

(1) A municipality may revise an approved budget through an adjustments budget.

- (2) An adjustments budget
  - (a) must adjust the revenue and expenditure estimate downwards if there is material under-collection of revenue during the current year;
  - (b) may appropriate additional revenues that have become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for;
  - (c) may, within a prescribed framework, authorise unforeseeable and unavoidable expenditure recommended by the mayor of the municipality
  - (d) may authorise the utilisation of projected savings in one vote towards spending under another vote;
  - (e) may authorise the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected roll-overs when the annual budget for the current financial year was approved by the council;
  - (f) may correct any errors in the annual budget; and
  - (g) may provide for any other expenditure within a prescribed framework.

Section 28 (4) stipulates that only the Mayor may table an adjustments budget in the Municipal Council, but an adjustment budget in terms of subsection (2) (b) to (g) may only be tabled within any prescribed limitations as to timing of frequency.

## 3. Executive Summary

The financial performance indicators reflect that the municipality is in a stable but sensitive position as extreme caution needs to be given to the threats and risks of the economy during the COVID 19 pandemic.

Higher anticipated Eskom tariffs, announcements of possible load shedding for the foreseeable future, use of alternative energy sources (off grid) by large power uses, shortages of water and the burden of the distressed economy on consumers will have a negative impact on the sustainability of our revenue sources

The South African Reserve Bank (SARB) has revised downwards its GDP forecast for the South African economy to **5.2%** y/y from 5.3% y/y previously as Q3.21's GDP figure is now projected at -2.5%, notably weaker than September's forecast of -1.2%. Growth for 2022 and 2023 at 1.7% and 1.8% respectively are unchanged.

However, our President's presentation and message at his recent State of the Nation Address (SONA) committed on numerous economic reforms. If this is to be realised much stability can be anticipated in the economy over the MTEF period.

Although, these opposing economic factors (both favourable and unfavourable) might create a somewhat resilient local economic environment, sound financial management

and budgetary control still remains the cornerstone of the municipality finances to ensure viability and sustainability in the long term.

The municipality has been committed to the cost containment measures gazetted by the National Treasury. In addition, we have reduce non-core expenditures, increase revenue collection initiatives and directed resources to ensure a funded and balanced budget without compromising financial prudence although achieved with some difficulty.

The spending during the past six months was not always spend within budgetary parameters or projections resulting in over committing of activities by SBUs relative to the budget allocated. Our stance as the Budget and Treasury Office (BTO) was very clear about the extent of commitments and the need of project managers to ensure that their cost drivers are to be aligned to the budgets allocated. Proper planning and the expectation to perform more with less needs to be enforced by all SBUs in line with section 78 of the MFMA.

In this light, a cash flow strategy was developed by the BTO whereby each SBU was given a cash flow allocation per month. A report is prepared monthly and will serve in the oversight structures from March 2022 for monitoring and accountability.

The municipality has thoroughly reviewed the SDBIP with the intention of addressing strength and weaknesses for the past six months therefore the result of this adjustment budget will result in enhance service delivery in the municipality. All the programmes and projects are aligned with the budget while at same time expenditure were reviewed thoroughly to ensure value for money. The revenue was projected in line with the past six performance. This adjustment budget covers both financial and non-financial performance of the municipality

The impact on the budget adjustment is as a result of prioritisation of all the Municipal services delivery Programmes which includes operation and capital as a result the main focus was to rationalise and realign our capital expenditure programme to meet our service delivery mandate in a year under the review, while we had to make enough provision for operations to sustain municipality to run its own operational activities

#### 4. Mid-Year Assessment

In anticipation of the 2021/22 Adjustment Budget process, a reflection of the past 6 months' capital and operating results and the projection for the remainder of the year are highlighted for consideration.

4.1 Analysis of the past six months and projection for the remainder of the year

## 4.1.1 Operating Budget

#### Operating Revenue excluding grants

A total amount of R 1 321 590 888.21 (47%) has been accrued against the budgeted amount of R 2 817 801 100.00.

From a cash flow perspective, the establishment of the Revenue Protection Unit (RPU), consistent credit control, installation of pre-paid meters, credible billings and a better integrated financial system were major contributing factors behind the higher revenue collection than anticipated. As a result, we have exceeded our own cash inflows by **11% of R138 million as at mid-year.** 

#### **Operating Grants Revenue**

A total amount of R 848 326 970.43 (70%) has been received against the budgeted amount of R 1 211 033 450.

This in line with the prior financial year trends and anticipate 95% expenditure in this regard if the trend continues as such.

#### **Operating Expenditure**

A total amount of R 1 628 180 080.26 (43%) has been spend against the budgeted amount of R 3 789 546 090.

This is considered satisfactorily performance and indicates that service delivery is being provided the circumstances of the economic environment as at mid-year.

However, a significant risk will materialise if the SBUs continue to over commit on budget allocated and will negate our good revenue performance. The cash flow strategy will assist in ensuring the mitigation of this risk and will be carefully monitored and reported to the oversight structures.

## 4.1.2 Capital Budget

Capital Grants Revenue

A total amount of R 355 964 290.04 (45%) has been received against the budgeted amount of R 795 320 625.

#### Capital Expenditure

Council approved a capital budget totalling R 1 128 559 582for the financial year 2021/22. The year-to-date expenditure to 31 December 2021 was R 413 095 211 (37%) of the approved amount.

We anticipate a significant improvement in capital expenditure going forward or for the next six months as more projects have been approved and also the implementation of many projections has already started. The final expenditure as at 30 June 2021 (prior period) ended at around 88% Therefore, the same figure is also anticipated as the current expenditure is comparable to the same time last year.

#### **Cash Flow management**

On a high level, the cash flow position as at 31 December 2021 reflects a stable position relative to the sensitive external economic environment faced by the city and the fact that the rollovers were not approved. The municipality realised a positive operational surplus of R985 million and R302 million net surplus after payments towards capital expenditure and repayments to our loans incurred for cash generating projects.

Strict credit control especially with government debtors had a positive impact on the cash flows.

The final cash balance as at 31 December 2020 was R302 million while R189 million consists of unspent conditional grants. Therefore, the municipality's grants are cash backed as at 31 December 2021.

For the second time in two financial years, the municipality was **able to be pay its creditors within 30 days i**n the first half of the current year 2021/22 financial year

Furthermore, our current ratio has also improved to 1.6 which above the Treasury norm of 1.5. Our Eskom debt and the debt to the water board remains current to date.

The significant risk to our good cash flow performance will be SBUs not aligning their expenditure trends to the budget allocated.

At the mid-year, the divisional budgets have not been exceeded

#### 4.2 Re-allocation of funds

#### 4.2.1 Revenue Impact

Although our cash flows have improved, it is highly imperative that our billing improves as well. There is a direct co-relation between billing and cash collection. Lesser billing equates to lesser cash collections.

However, the initiatives especially the new financial system negates these risks. The following are initiatives to ensure our billing system remains effective

As part of ensuring that the budget adjustment is realisable and all our estimates are met at year end the municipality through the intervention of the Municipal Manager has identified the key drivers in order to improve municipal revenue, namely:

- 1. Rationalisation of credit control in targeted areas such as Mankweng Council resolution has already been passed for implementation in this area and we are awaiting for engagements with the community.
- 2. Intensification of indigent register cleansing to ensure that the register is not overstated.
- 3. Thorough implementation of smart meters which includes both water and electricity.
- 4. Focus an investment in electricity programmes as matter of protecting municipal key revenue base which is energy in order to eliminate illegal connections and illegal activities
- 5. Following up on all the government debt in order to recover them and finalisation of a completeness projects in order to enhance property rates revenue
- 6. Prudent and fiscal discipline on the cash flow management
- 7. Investment in alternative cost savings measures to mitigate high energy costs
- 8. Arrear allocation through pre-paid mode technology.
- 9. Conversions to **pre-paid water meters** and replacement of old electricity meters that have slower consumption levels.
- 10. Electricity stability measures (reduce distribution losses).
- 11. Use of third party monthly data to detect illegal connections through our own **Revenue Protection Unit (RPU).**
- 12. Updating of prepaid meters to the new international standards to detect and prevent **all illegal bridges** and ensure revenue continuity
- 13. Debtor profiling through credit bureau
- 14. Purchase of **fleet** to ensure insourcing rather than outsourcing example purchase of water tankers and waste trucks.
- 15. Auctioning of old fleet to save on repairs and maintenance
- 16. Reduction in use of **service providers** and consultants by ensuring optimal utilisation of own staff or resources.
- 17. Fast tracking of developments in the city.

All the above will be implemented in the short-term and will be catered for over the MTERF budget.

The revenue budget will see an upward adjustment of R28m explained as follows:

Dear Mr. Selepe

# APPLICATION FOR ROLL OVER OF UNSPENT CONDITIONAL GRANTS FOR THE 2020/21 FINANCIAL YEAR

Your letter dated 23 August 2021 refers.

Approval is hereby granted in terms of section 22(2) of the 2020 Division of Revenue Second Amendment Act, (Act No. 20 of 2020) (DoRSAA) to retain a lesser amount of **R19.9 million** from the requested amount of R76.5 million allocated to your municipality in the 2020/21 financial year through the DoRA. This approval is in respect of the Integrated Urban Development Grant (R5.3 million), Integrated National Electrification Programme grant (R561 thousand), Regional Bulk Infrastructure Grant (R11.4 million), and the Water Services Infrastructure Grant (R2.1 million).

The National Treasury used the criteria set out in Circular No.108 of the Municipal Finance Management Act, 2003 (Act No.56 of 2003) as a guide to assess the roll over request by your municipality.

The reduced amount of R19.9 million is to fund the following projects:

### Integrated Urban Development Grant (R5.3 million)

- Tarring of Ntsime to Sefateng road (R1.5 million);
- Mashashane water works (R1.2 million);
- Extension 44/78 sport and recreation facility (R1.9 million); and
- Construction of soccer field in Moletjie (R627 thousand).

### Integrated National Electrification Programme grant (R561 thousand)

Electrification of Boikhutsong phase 2.

### Regional Bulk Infrastructure Grant (R11.4 million)

- Bloodriver wellfield (Olifantspoort) and Seshego groundwater development and pumping mains (Polokwane groundwater development) (R2.1 million);
- Construction of boreholes and pumping mains for the Sandriver North wellfield and Polokwane boreholes (Polokwane groundwater development) (R1 million);
- · Regional waste water treatment plant (R187 thousand); and
- Construction of the Sandriver North water treatment works (Polokwane groundwater development) (R8.1 million).

### Water Services Infrastructure Grant (R2.1 million)

 Construction of borehole infrastructure and pumping mains for the Sterkloop and Sandriver South wellfields and Polokwane boreholes (Polokwane groundwater development) (R2.1 million).

The unapproved amount of R27.3 million is based on the following reasons:

### Integrated Urban Development Grant (R22.3 million)

- Late appointment of contractors i.e. after 31 March 2021; and
- No proof of commitment i.e. appointment letters of service providers/contractors.

### Water Services Infrastructure Grant (R4.6 million)

No proof of commitment i.e. appointment letters for service providers/contractors.

### Public Transport Network Grant (R29.7 million)

As per recommendation by the Department of Transport.

The National Treasury advises your municipality to adjust your grant income projections according to section 28 of the Municipal Finance Management Act, (Act No. 56 of 2003) by passing a municipal adjustments budget. In this regard, please take note of the requirements of regulation 23(1) of the Municipal Budget and Reporting Regulations (Government gazette No. 32141 dated 17 April 2009) which provides for dates by which a Municipal Council should pass an adjustments budget.

Page 2 of 3

All approved roll overs must be reported in a format approved by National Treasury. Further, municipalities must also report expenditure incurred on rolled over amounts monthly to the relevant Transferring Officer. Municipalities are also encouraged to also send a copy of the roll over reports to the respective provincial departments (provincial treasury and provincial local government department).

It must be noted that this process only covers the 2020 DoRA allocations.

Kind regards,

pp J.H. 11-9/11

Dear Mr. Selepe

### REPAYMENT OF UNSPENT CONDITIONAL GRANTS FOR THE 2020/21 FINANCIAL YEAR

The National Treasury has finalised the unspent conditional grant process for the 2020/21 financial year and has determined the unspent amount to be repaid to the National Revenue Fund (NRF).

National Treasury utilises the 2021 pre-audited Annual Financial Statements (AFS) to update the unspent conditional grants dataset for the 2020/21 financial year. Please note that in the absence of the AFS, National Treasury used the Section 71 report for the fourth quarter of 2020/21 to determine the amount to be surrendered to the NRF.

In the case of your municipality, National Treasury concluded that an amount of R57.4 million remains unspent and should be repaid to the NRF. The unspent amount is in respect of the Financial Management Grant (R446 thousand as per AFS), Integrated Urban Development Grant (R22,3 million as per unapproved rollover and AFS), Water Services Infrastructure Grant (R4,6 million as per unapproved rollover and AFS), Regional Bulk Infrastructure Grant (R310 thousand as per AFS), and the Public Transport Network Grant (R29,7 million as per unapproved rollover and AFS).

Kindly ensure that the unspent amount stipulated above should be paid into the following bank account on or before 19 November 2021:
