3.3.10 Spatial Accuracy

3.3.11 Cadastral and Ownership match

- All ownership records for all properties and sectional title complex units that lie with the municipality must be ordered from the Deeds Office. This must be done by listing the names of all the SG township allotment areas, the farm numbers of all the parent farms and the names of all sectional title complexes that lie within the municipality and sending these lists off to the Deeds Office in prescribed Deeds Office request format.

- All properties that are in the registered cadastral layer must have a match to a record in the Person table of the Deeds Office ownership database. If there are cases where there is a valid reason for a property to be contained in the registered cadastral layer with no match to a record in the Person table of the Deeds Office database then these reasons must be added to comment field of the property in the registered cadastral layer. Some of the cases where this may occur are the following:
 - ❖ A sectional title complex lies on the property.
 - ❖ The property was never registered and does not have any underlying ownership and is therefore deemed to be Unalienated State Land.
- The property was never registered and its underlying registered parent property has ceased to exist. These cases are mainly the roads which are formed by the remainder of townships and are deemed to vest in the ownership of the municipality.
- Required ownership information that was not captured or was captured with an incorrect property description in the Deeds Office database.
 - ❖ All records in the Person table of the Deeds Office ownership database must have a match to a property in the registered cadastral layer. If there are cases of errors or anomalies in the Person table of the Deeds Office database, then these must be investigated and flagged on the Person table of the Deeds Office database.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD
- 6 must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
