PLANNED WATER SUPPLY INTERRUPTION DUE TO PIPELINE LEAK REPAIRS AT EBENEZER SCHEME

Polokwane Municipality wishes to inform residents and affected stakeholders of a **planned interruption to the bulk water supply from the Ebenezer Water Treatment Plant** due to scheduled repairs to four (4) critical pipeline leaks at the Ebenezer Scheme.

According to Lepelle Northern Water (LNW), the repair work is expected to take **approximately eight (8) hours** and is scheduled to commence on **Wednesday, 07 October 2026**.

The interruption is expected to significantly affect water distribution to areas supplied by the Ebenezer Scheme, including, City; Dalmada; Mankweng; University of Limpopo; ZCC Church; Maribe Thema; Segwashe; Mothapo; Sophie Mamabolo; and Surrounding areas.

The **Olifantspoort Water Treatment Plant will continue operating without disruption** and will continue supplying areas within its service network.

Water supply will resume **immediately upon completion of the repair works**. Residents in affected areas are therefore urged to use available water sparingly and make the necessary preparations for the duration of the interruption.

For water and sanitation queries, kindly contact
015 290 2376 or send a whatsapp text to **068 290 8736**
