

PUBLIC NOTICE

24 June 2026

ELECTRICAL FAULT AFFECTING WATER SUPPLY AT SESHEGO WATER TREATMENT PLANT

Polokwane Municipality wishes to inform residents that the Seshego Water Treatment Plant is currently experiencing an electrical fault which is under investigation by technical teams.

As a result, water supply is affected in the following areas:

- Seshego Zone 2
- Seshego Zone 3
- Seshego Zone 4
- Seshego Zone 8
- Biko Park

Residents in the affected areas may experience low water pressure or temporary water supply interruptions.

The municipality further wishes to assure residents that the Olifantspoort Water Treatment Plant remains operational and continues to pump water into the system, which will assist in mitigating the impact of the current disruption. However, some areas may still experience reduced water pressure or intermittent water supply until the fault has been resolved.

Our technical teams are attending to the matter with urgency and updates will be communicated as more information becomes available.
